Design Your Beauty with Dermalax™
Dermalax™ is a Supreme & Pure monophasic, crosslinked HA soft tissue filler.

Dermalax™ works by adding volume to facial tissue, thus correcting wrinkles & folds, and restoring a smooth appearance to the face.

It keeps your skin moisturized, stimulates the regeneration of the aged cells, and supports Collagen & Elastin to maintain healthy skin.

“3 Better”

Better Performance
- Better volumizing effect
- Soft extrusion force, and excellent results

Better Comfort
- Infused with lidocaine to improve comfort during treatment
- Longer-lasting effect
- Less pain

Better Choice
- Various options for treatment
- Customized service to all users due to its extensive application from face wrinkle to surgical application
- No harmful side effects and excellent biologic safety

Monophasic Blob Structure

Regular & Dense Lattice which allows consistent Smooth Injection, Naturally Harmonized Volume & Look Solid, Durable and more Natural Looking

Injection Areas

Dermalax™ PLUS
Superficial - Mid dermis

Dermalax™ DEEP
Mid - Deep dermis

Dermalax™ IMPLANT PLUS
Deep dermis - Subcutaneous tissue
Dermalax™ Technology has optimized the product to minimize the pain during and/or post injection for the patients.

- Smooth Injection by Regular Blob Structure
- Stable Injection by Consistent Injection Force
- Contains 0.3% Lidocaine, and Minimize Injection Pain
